

See for Yourself What **MightyPlant**TM WITH **Harp-N-Tek**TM Can Do.

More Nutrient Uptake Is Better!

It's the exclusive "Harp-N-TekTM Inside" that makes MightyPlantTM mightier than other citrus and vegetable fertilizer products. Harpin technology supercharges nutrient uptake for better plant and tree health. MightyPlant features a high-quality formulation of 15-0-40 or 18-18-18 plus micronutrients. But it's the Harpin technology that makes the real difference you want to see in your crop and your bottom line.

Ask your agrichemical supplier for MightyPlant with Harp-N-Tek. You'll be mighty glad you did.
